"Standard" Motion Process	
Maker of the motion - makes the motion	
2nd from floor	
If no 2nd, motion dies.	
Discussion	
Ask the body if they are ready to vote on the motion.	
All those in favor?	
All those opposed?	
Vote - must have 2/3 to pass - substantial unanimity	
Announce motion passes/failed - repeat the motion.	
Ask for minority opinion	
Friendly Amendment	**Amendment**
Amendment is proposed	Amendment is proposed
Maker of ORIGINAL motion and the person who 2nd motion - must agree to the friendly amendment for it to go through.	2nd from floor
If this does continue on with motion process - no need to vote on the amendment THEN vote on motion.	If no 2nd, amendment dies
	Then body discussed the amendment ONLY, not the motion.
	Ask the body if they are ready to vote on the AMENDMENT not the MOTION.
	All those in favor?
	All those opposed?
	Vote - must have 2/3 to pass - substantial unanimity
	Announce AMENDMENT passes/failed
	Move back to disucssion the MOTION (whether original or amended).
Minority Opinion	**Vote To Reconsider**
Only go to the microphone if you voted on the non-prevaling side to present NEW information that you believe if the body would have heard this they would have voted differently.	Someone from the majority comes to the micraphone saying they would like to change their vote and would like a vote to reconsider.
Vote to Reconsider - I will ask this only for the first motion it comes up on since we are all new…	2nd from the floor
If no vote to reconsider - repeat passed/failed motion and move on.	Then discussion is open.
	Then we take a vote on the MOTION again.
	All those in favor?
	All those opposed?
	Vote - must have 2/3 to pass - substantial unanimity
	Announce motion passes/failed
	Discussion is DONE at this point - motion is either passed or failed. Period.
